ABOUT ME

I am a second-year B.Tech Computer Science student with a strong interest in programming, problem-solving, and building practical tech projects. I enjoy learning new technologies, improving my coding skills, and working on real-world applications. I'm currently focused on strengthening my fundamentals in DSA and exploring web development.

EDUCATION

Bachelor of Technology (CSE)

KR Mangalam University, Sohna

2024 – Present

- CGPA: 8.5/10
- Academic Projects: Fake News Detection ML Model
- Activities: Coding Society

SKILLS

Programming Languages:

- Java, Python, C++, JavaScript

Web Development:

- HTML5, CSS3, JavaScript, Basic React, Basic Node.js

Core Computer Science:

- Data Structures & Algorithms, Object-Oriented Programming (OOP),
Operating Systems Basics, DBMS, Computer Networks Fundamentals

Tools & Platforms:

- Git, GitHub, VS Code, Linux (basic commands)

Cloud & DevOps (Beginner):

- AWS (S3, EC2 basics), Docker (beginner)

Soft Skills:

- Problem-Solving, Communication, Teamwork, Time Management

PROJECTS

- **Fake News Detection Model (Machine Learning)**

Built a machine learning model to classify news articles as real or fake using NLP techniques. Performed data preprocessing, tokenization, and TF-IDF vectorization. Trained and evaluated models such as Logistic Regression and Naive Bayes to achieve high accuracy.

Tech Used: Python, Scikit-learn, Pandas, NumPy, NLP (TF-IDF)

- **Personal Portfolio Website**

Built a responsive portfolio website to showcase skills and projects. Implemented clean UI, navigation, and reusable components.

Tech Used: HTML, CSS, JavaScript

- **Weather App (API-Based)**

Created a web app that fetches real-time weather information using a public API. Implemented search functionality and dynamic UI updates.

Tech Used: JavaScript, OpenWeather API, HTML/CSS
